HIGH COMMISSION FOR PLANNING  
Regional Directorate of Souss Massa

# The consumer price index

City of Agadir  
(Base 100 :2017)

December 2024

## INTRODUCTION

Following the Decree No.2.19.1083 published in Official Bulletin No 6880 of 7 May 2020 setting out the components of the new consumer price index base 2017 and repealing Decree No. 2. 09. 529 on the consumer price index base 2006, the High commission for planning has published the new consumer price index base 2017 from 20 May 2020.

It should be recalled that the reform of the consumer price index is necessary because of the changes in the consumption habits of Moroccan households in recent years and the development of new methodological approaches in this area. This was made possible by the availability of up-to-date data from the 2014 Household Consumption and Expenditure Survey and the 2014 General Population and Housing Census.

This 2017 reform is the fifth generation of consumer price index reforms since Morocco's independence. It is structured around several axes:

- ✚ In terms of geographical coverage, the scope has been expanded to cover 18 cities representing all regions of the Kingdom, instead of the previous 17 cities.
- ✚ Updated and enlarged the reference basket to contain 546 articles and 1391 varieties instead of 478 articles and 1067 varieties in the basket of the previous index.
- ✚ Weights products have also been updated on the basis of new data on consumption patterns.

## I-The national level

The consumer price index in December 2024 decreased by 0.2% compared to the previous month. This change is the result of the 0.2% decrease in the food index and the stagnation in the non-food index.

The decreases in food products observed between November and December 2024 mainly concern 'Vegetables' with 3.9%, 'Fruits' with 2.3% and 'Mineral waters, soft drinks, fruit juices and vegetables' with 0.2%. On the other hand, prices increased by 1.0% for 'Meats', 0.8% for 'Oils and fats', 0.6% for 'Milk, cheese and eggs' and 0.3% for 'Coffee, tea and cocoa'. For non-food products, the increase mainly concerned the prices of 'Fuels' with 0.3%.

The average annual CPI increased by 0.9% in 2024 compared to 2023. This is the result of the 0.8% increase in the food index and the 1.2% increase in the non-food index .

The largest annual CPI increases were recorded in Laâyoune with 3.0%, Guelmim with 2.2%, Dakhla and Safi with 1.7%, Agadir with 1.6%, Fes, Rabat and Tetouan with 1.5%, Marrakech with 1.3%, Errachidia with 1.1%, Casablanca and Al-hoceima with 0.8%, Kenitra with 0.7% and Tangier and Settat with 0.6%.

## I -In the city of Agadir

In the city of Agadir, the Consumer Price Index (CPI) reached 118.8 in December 2024 compared to 118.3 in the previous month, recording an increase of 0.4%. This change is the result of the 0.9% increase in the food index and the stagnation in the non-food index (Table 1).

The increases in food products observed between November and December 2024 concern "meat" with 1.9%, "fish and seafood" with 1.8%, "sugar, jam, honey, chocolate and confectionery" with 1.6%, "milk, cheese and eggs" with 1.3%, "coffee, tea and cocoa" with 1% and "oils and fats" with 0.8% .

On the other hand, prices decreased by 0.3% for "vegetables" and by 0.1% for "fruits" (Table 2).

For non-food products, the change was mainly in "fuel" prices with -0.3%.

## III- Inter-annual variations

In the city of Agadir, the average index for the year 2024 changed by 1.6% compared to the previous year. The Consumer Price Index for the month of december 2024 changed by 2.1% compared to the same month of the previous year (Table 3).
